2010-2011	Cara Chasin- Post-Graduate Medical Student
2010	Nung Rudarakanchana- Vascular Surgery Resident (England)
2011	Mike Sadek- Vascular Surgery Fellow
2011	Di Zhou, Jessie Yu- Medical Students
2011	Liza Eden Giammaria- Phlebology Fellow

2012	Hamza Rana- Phlebology Fellow
2012	Megan Dondarski- Union College Student- NYU Volunteer
2013	Randolph Todd Jones- Phlebology Fellow
2014	Omar Esponda- Phlebology Fellow

### **Major Research Interests**

Clinical understanding of venous diseases, venous thrombosis, diagnoses and intervention

### **Grants Received**

#### **JOBST Award**

Agency:	American College of Phlebology
Title:	Compression vs. No Compression after Endovenous Ablation of the GSV
Period:	2009-2010
Total Direct Costs:	\$15,000
Role:	PI
Effort:	50 %

#### **ACP Phlebology Fellowship Grant**

Agency:	American College of Phlebology Foundation
Title:	NYU Phlebology Fellowship Program
Period:	2010-2011
Total Direct Costs:	\$110,000
Role:	Program Director
Effort:	100%

### **Patents**

2004	Vascular Access Sheath – TréSheath
2008	Endovascular Treatment Apparatus and Method
2013	Apparatus and Method of Treating a Vein with Thermal Energy
2013	Apparatus and Method of Treating a Vein with Heat
2014	Apparatus and Method of Treating a Vein with Thermal Energy (Revised)

### **Boards and Community Organizations**

2006	Scientific Advisory Board, AngioDynamics Corporation
2007	American College of Phlebology Foundation Inception
2007 - 2012	American College of Phlebology
2009 - 2011	American Venous Forum Foundation
2012	American Venous Forum
2012	Intersocietal Accreditation Commission, Vein Center Division – President
2013	Intersocietal Accreditation Commission, Board of Directors

## **Charity and Non-Profit Work**

2020 – present    Vein & Lymphatic University, Chancellor  
                         -EmPowHER webinar series  
                         -Veins for All webinar series  
                         -VLU – Flebocurso Hands on Training Courses  
                         -Humanitarian projects

## **Other**
